## BATTLEFORD IS HAPPY.

### C.N.R. LINES ENTER TOWN.

Canadian Northern Tracklayers this Morning Reached the Historic Outpost.

Winnipeg, May 16th.—After hope deferred Battleford has at last been linked up with the outside world and this morning the C.N.R. tracklayers entered that old northwestern outpost of civilization. The town will be made a divisional terminal and thousands of Americans are already pouring into the fertile districts surrounding it. The completion of the line ensures still larger American arrivals. The majority of the new comers are going in by the Soo Line.

### THE SUTHERLAND ESTATE

Woodstock, May 16th.—Hon. Jas. Sutherland left an estate worth \$500,000. He bequeathed \$29,000 to the Woodstock Hospital.

### AFTER AN INCREASE

Winnipeg, May 16th.—The Union fathers went on strike today for higher wages. They are asking for a 10 per cent increase.

### TORONTO HAS SMALLPOX

Toronto, May 16th.—A man who was to have led a bride to the altar tomorrow was taken to the smallpox hospital today. This is the tenth case. All are traced to Stratford.

### MAY HAVE BEEN MURDER

Port William, May 16th.—A post mortem will be held today on the body of Katrina Malanveto, who was burned last Monday, the date set for her marriage. It is now feared she was poisoned by a rival.

### FOUNDERKEEPER IN TROUBLE

Portage la Prairie, May 16th.—R. C. Ross, founderkeeper, has been remanded to Thursday for sentence on a charge of indecent assault on four little girls. He pleaded guilty. He was previously from Brandon.

### ARREST ON THE ICE

Halifax, May 16.—Two Newfoundland fishermen were picked up off an iceberg by a French schooner. They had been on the ice twelve days and were in a precarious condition, subsisting on fish they caught and water melted from the ice.

### GETTING TOGETHER.

Toronto, May 16.—A railway war has raged fiercely between the M.I. and the C.P.R. for seven years, but the indications are that there will be peace in the near future. The settlement has been brought about by Lord Strathcona, who is largely interested in both the C.P.R. and Great Northern.

### OPPOSED TO THE EMBARGO.

London, May 16.—At a public conference at Edinburgh, under the auspices of the Co-operative Defence Association, protests were made against the Canadian cattle embargo which was described as the worst form of protection that could be introduced into a free country.

### TRANS-ATLANTIC RACE.

New York, May 16.—With the incentive of the valuable prizes offered by the German Emperor, eleven large sailing yachts representing three nations, started this morning for the race across the Atlantic. Eight contestants are American, two English and one German. The finish will be at the Lizard, 2,000 miles away, where a German warship awaits to note the winner.

### WINNIPEG'S POPULATION 80,000.

Winnipeg, May 16.—The reports of the assessment commissioner, published this morning, show the total taxable property in Winnipeg to be \$62,562,870, an increase over last year of \$11,426,920. The population of the city is placed at 78,973, being a gain of 43,000 over last year. Not included in the assessments are lands exempt from taxation, valued at \$11,947,740.

**HOW IS THIS?**

Here is a sample from the Quapelle Progress of the insinuations which are not considered by the opponents of the Government as too dirty for use in the absence of fact or argument:

"The electoral divisions of Alberta will be 25 in number. Protests are being made against the arrangement of the constituencies as it is intimated that the government is playing into the hands of the Roman Catholic electors. Athabasca, with an exceedingly sparse settlement, gets two members, Edmonton one and Calgary only one."

**THE C.N.R. SERVICE TO  
BATTLEFORD.**

The announcement that within another month the C.N.R. will have a passenger service in operation between Winnipeg and Battleford is as welcome news to Edmonton as to our sister city 300 miles to the east. While the immediate and direct benefit will be to Battleford, the inauguration of the service will mean that C.N.R. trains are running from the Great Lakes to a point as near Edmonton as Maple Creek is to Calgary. True this is far from a direct service between this city and the lakes but brings the prospect of a direct service within tangible distance. Meantime the contractors are busy grading the line from railroad westward along the Saskatchewan Valley and considering the favorable nature of the country traversed, the completion of the grading and track-laying to Edmonton during the present season will be a less serious undertaking than the length of line actually graded and tracked last year.

The most serious phase of the work is that of bridging the river and this is by no means unsurmountable. The permanent bridges it is understood can be best constructed during the winter. But to construct these temporary wooden structures are necessary for transporting material and carrying on the work. It should be possible to construct these temporary bridges strong enough to carry moderately heavy trains while the permanent structures are being built. Should this be done it appears certain that C.N.R. trains will be running from Edmonton to Winnipeg before Christmas.

**THE RIFLE.**

The regular practice of the Edmonton and Strathcona Rifle Associations was held on the range on Saturday afternoon. About a dozen riflemen attended, and put in some steady practice. The wind was tricky and the light changeable on account of passing clouds, but some fair scores were put up, in spite of these drawbacks.

The following are the best three scores of each association.

**A New Novel of Interest.**

"Sandy" is the title of a new novel by Mrs. Alice Hegan Rice, author of "Mrs. Wiggs of the Cabbage Patch," published by Wm. Briggs, Toronto. The new book appears likely to maintain for its author the friendship of readers of her former volume and win her many new friends on its own merits. The story which is one of an Irish boy with a Scotch name, of an English and made in America and should thus be cosmopolitan enough to claim a large constituency. Aside from this, it is a good story, starting from first to last, void of "padding," of striving after effect, and carries the reader along with the magnetism of a splendid love story, splendidly told.

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

### Source of Squadron's Coal Supply Causing Inquiries—Japan's Relations with France Severely Strained

London, May 16.—The Russian fleet sailed northward from Honkoku Bay early Sunday morning. This is the latest news available in London regarding the Russian warships. Last month the Russian warships consumed 120,000 tons of coal. Where they got it from is a mystery. On the strength of a rumor the evening papers last night got out an extra announcing that a naval battle had commenced. The admiral has no confirmation.

**A DISQUIETING SITUATION.**  
Tokio, May 16.—Count Okuma, former Foreign Minister of Japan, stated today that the presence of the Russian warships at Indo-China had created a disquieting situation. It was only the remembrance of their long friendship with France which restrained the Japanese from proceeding to extreme measures. The government was endeavoring not to embitter the situation. It was necessary however to adopt a definite attitude. The Japanese thoroughly understood the French obligations toward Russia, but the present circumstances were not affected by European politics.

### WEATHER.

Forecast: Fine and warm throughout the Territories, a few scattered showers in western Manitoba. Wednesday fair and warm generally.

Warm weather prevailed throughout the Territories and Manitoba yesterday. Showers fell in nearly all parts of Manitoba and Eastern Assiniboia. Very heavy rain falls reported around Broadview, the Yorkton district and Hamiota. It hailed a little around Emerson. This morning the weather is clear and mild in Alberta and Western Assiniboia, and generally cloudy in all other parts.

## The Password Is Quality

For admission to my stock, I have always succeeded in getting not 'something just as good' but something a little better than the best. My wools are bought from the three most exclusive houses in the world. I have many patterns in Wools and 'Trimings' which are not to be found outside of New York or London.

In another announcement I want to tell you the difference between cheap clothes and mere todie covers. But just now I want you to know that QUALITY is the only thing that counts with

### ANOTHER WONDERFUL CASE.

Here is Something that will be Welcome News to Many a Discouraged One.

WILLIAM H. RAY.

"For several years I have been troubled with gas around my heart, shortness of breath, in fact, if I walked my usual gait my breath would get so short I would be compelled to make several stops during my walk."

"(I) ate my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn."

"I was bothered with severe pains across the small of my back and the least bending or turning would cause me to almost cry out."

"I was induced to try Dr. Leonard's Anti-Pill and from the very first found relief."

"For the last three months I have had no recurrence of my former complaints, so I am bound to say Anti-Pill has indeed cured me."

This is the voluntary statement of Wm. H. Ray, of 165 Queen St., Kingston, Ont. All druggists sell Anti-Pill. The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

The remedy that cured such an extreme case is surely worth trying.

THE planter from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

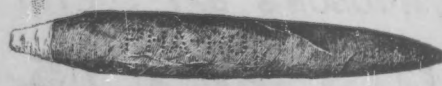

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filter is perfect—an even smoker—palatable and delicately odorous.

### Hon. Fitzpatrick Outlines the Differences Between the Original and Amended School Clauses.

Ottawa, May 14th.—In the House of Commons today Hon. Mr. Fitzpatrick gave an explanation as to the differences between the amended educational clauses of the Autonomy Bill and the one originally prepared by himself. The Minister of Justice in the first place said that the Haultain draft bill would bring in section 93 of the B. N. A. Act which would give to the minority all the rights and privileges which they enjoyed under the 1877 Act. Section 16 as originally drafted preserved all the rights and privileges which the minority enjoy at the present time and made provisions for continuing to them the grants which they are now receiving. Section 16 as amended restricts the rights of the minority to those rights and privileges granted under the ordinances chapters 29 and 30 of 1901 and excludes all the rights and privileges which they had under the Act of 1875 or any other act. He set forth the rights which they have under the amended clauses as follows: I. The right to half an hour of religious instruction in all schools to Protestants and Catholics alike. II. The right to the first and second Dominion "Catholic" reader. IV. The right of the trustees to select the teachers.

### CRICKET.

In the match played on the exhibition grounds on Arbor Day, the home team gained an unexpectedly easy victory. Batting first, Edmonton put up a total of 124, E. F. Slocock's innings of 37 being a fine effort despite three chances.

Robbins, Nield and Richardson also did well.

The Fort's first inning produced only 41 runs, the bowling of Robbins and Aldridge being very good.

Following on, the visitors, despite some fine hitting by Capt. Worsley and a good inning by Bowen, were dismissed for 80; Edmonton thus winning by an inning and three runs.

Jellett brought off a fine catch in the first inning of the Fort, in effecting which he had the misfortune to sustain a nasty cut on the finger. E. Slocock caught Capt. Worsley very finely, and the stumping of Bayter was a fine piece of work, but the fielding of the team still leaves much to be desired.

The visitors were entertained at lunch at the Edmonton Hotel, where Mr. Hustyn provided an excellent meal.

The following were the complete scores.

### MARTINS.

Correspondence.

Mr. C. H. Ronke has been called to Wetaskiwin owing to sickness in his family in that town.

Adam Gabrielse is road-boss this year. Things will be rushed where Adam is. At present he is cutting the hill on the east side of the new bridge, and it is now passable.

Quite a number of residents have already arrived in this vicinity this spring. Among them we might mention Mr. Enns, Mr. Cranland, Mr. Clark, Mr. King, Mr. Debuque. We know of several others who will be arriving, so that Martin's is getting a fair share of the immigration rush.

On Monday, May 8, a meeting was held at Martin's to discuss the advisability of establishing a creamery in this vicinity. Mr. A. E. Wilson was chosen chairman of the meeting and Mr. Percy Fordham as secretary. After a short discussion it was unanimously agreed that we should have a creamery here. The following men were appointed to canvass the district: east side of river, Mr. Fred Fordham; south east district, Mr. Thorson; north west district, Mr. A. E. Wilson; west district, Mr. F. E. Johnson; south district, Mr. John Roseth.

The next meeting will be held June 3rd at 7 o'clock sharp. All parties interested in this matter are cordially invited to be present.

BEN. NEVTS.

### WILL HAVE A PIC-NIC.

The Bulletin is in receipt of the following communication.

Pembina River, May 4th, 1906

Everybody is cordially invited to come and attend the picnic that will be held at the Ross ferry, Pembina River on July 1, 2, 3. There will be

sports of all kinds including horse racing and dancing. It is decided to give \$200 for the fastest free-for-all running race. All horses barred outside the Pembina District and \$25 for the best waltzer.

A speaking platform and swings will be erected and refreshment stands. Any one will have an opportunity and is welcome to speak on any subject he desires. I Thomas Shepard will speak each day one hour in defence of the following subjects, taking the bible alone for his foundation.

I. The Scripture clearly teaches that the Saint is not immortal.

II. That the wages of sin is death and not eternal consciousness in torment.

III. That there will be a future probation for the world which will be given perfect human bodies but the saints will be like their Lord above motives.

IV. That no sect is or ever was the Church of Christ but are termed in the bible as Anti-Christ.

If any man or men think they are able to prove that the above statements are not true, they are invited to come and take up the opposite side and will be given equal time to prove it. If not for ever hereafter hold your peace. Take down your sign and don't pretend to be a soldier in defence of the truth. I will be glad to answer all questions concerning the bible or bible doctrine claiming that the bible is written by inspiration and is a harmonious whole but that it is greatly misrepresented by the majority of those who pretend to believe it. Whether they do it in ignorance or not I do not pretend to say, but prefer to meet some learned men on this or the above subject on the 1, 2, and 3rd of July in Ross Grove at the ferry. Yours truly, T. Shepard, Pembina River.

—Prince Albert Advocate:—Last week it was proven beyond all doubt that the Saskatchewan river is rich in gold and that it abounds in unlimited quantities. It was at the water tank and filter of Mr. Harry Ward that the startling discovery was made. Mr. Ward here has a gasoline engine and the water is pumped from the river through a 2 1/2 inch pipe into the filtering tank. Anyone who has seen this filter knows that on the very top is a blanket through which the water passes and which catches the bulk of the sand and mud, and it was amongst this and upon the blanket that the gold was first seen. It was lying so thick that you had no trouble in seeing it at first glance. Several parties gathered up some in a cup with a tea spoon. Mr. Ward thinks that upon that one blanket there is probably two hundred dollars worth of gold, saying nothing of all there must be on the blankets that are beneath this one.
